Dear Sir:

In response to the Office Action dated December 20, 2001, please enter the following amendments and consider the following remarks.

AMENDMENTS

IN THE CLAIMS:

Replace the indicated claims with:

- 1/2. (Amended) A roll-up window blind for a window of a motor vehicle, the window having an associated window pane, the roll-up blind comprising:
- a rotatable winding shaft,
  - a blind material having parallel first and second edges with the first edge being connected to the winding shaft for movement between a reeled-in position and a reeled-out position,
  - a first drive arrangement which pre-stresses the winding shaft in a direction corresponding to moving the blind material to the reeled-in position,
  - a pull rod fastened to the second edge of the blind material,
